### Description

Wake up with our exclusive herbal tea "Scetate!", an explosion of vitality inspired by the strength of Mount Vesuvius. The word Scetate, in Neapolitan dialect literally means "Wake up!", and this rooibos combines ingredients that reflect the power of nature. Chili, known to improve circulation and have anti-inflammatory properties, harmoniously blends with rosebuds, which support the immune system, and safflower, which strengthens both physical and mental activity.

The enveloping scent of cherry completes this unique sensory experience. Imagine Vesuvius, with its primordial force, shooting out chili peppers from its crater, transferring its power and vitality into your cup. Delightfully invigorating, the "Scetate!" herbal tea is the ideal companion for those seeking an extra boost throughout the day, providing mental clarity and physical strength in every sip.
